TESTIMONIAL

“MADE EASY SCHOOL, Gurugram has always believed in enhancing a school culture of sustainability. Sustainability doesn't come naturally to kids. Like most worthwhile lessons, it can be taught by the school, whole families and community involvement.

The innovative initiatives and insightful data shared on water conservation drives during the webinar conducted by the GuruJal team, has left a deep impact on the parents and students. We thank and support the GuruJal team in empowering more people to contribute to this noble cause.

GuruJal plays vital role in the preparation of District Water Plan

18th January 2022

Meeting held with Chairperson, Haryana Water Resources Authority

Meeting was held under the chairmanship of Smt. Keshni Anand Arora, retired IAS, Chairperson Haryana Water Resource Authority and attended by Additional Chief Secretary, Haryana; Deputy Commissioner, Gurugram; officers of HWRA and members of the District Water Resource Planning Committee along with team members of GuruJal. The agenda of the meeting was to prepare the District Water Plan and the formation of a District Water Resource Planning Committee.

Meeting with Chairperson, Haryana Water Resources Authority

Formation of District Water Resource Planning Committee

District Water Resource Planning Committee has been formed for the district of Gurugram with Program Manager GuruJal Society as a part of the committee. Functions of the committee includes:

Preparing District Water Resource Plan comprising of block wise and area wise plans; Identifying and demarcating the problem areas wrt water quality and pollution hazards; and Discussing strategies to regulate, manage and conserve water in the district.

Currently, GuruJal is working on data collection from all the concerned departments and stakeholders. Public notice will be circulated through social and print media inviting suggestions and comments to be considered while preparing the plan.

District Water Resources Plan 2041
For Gurugram District

Stages of District Water Plan Preparation:

- Formation of Committee & Departmental alignment
- Data collection
- Technical analysis of data
- Identification & demarcation of problem areas
- Developing strategies & proposals
- Final implementation of the plan

Be a part of the District Water Resources Plan making process by filling the survey forms.

GuruJal awarded on Good Governance Day for its works in Water Conservation

25th January 2022

To commemorate Good Governance Day, a virtual meeting was held under the Chairmanship of Honourable Chief Minister, Shri Manohar Lal Khattar, and different districts of Haryana. On this occasion, GuruJal Society was awarded for its exemplary contribution to Water Conservation in the Gurugram district.

Capacity building session conducted with Made Easy School students

14th January 2022

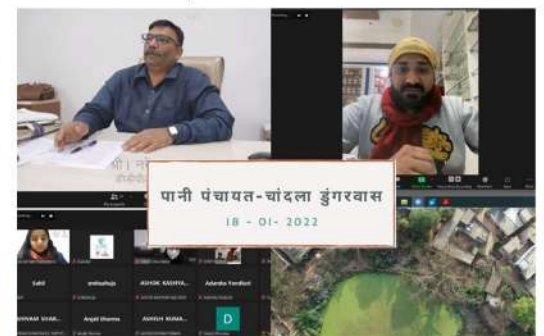

The webinar was held titled आह्वान (Aahwahan) i.e., "a wakeup call" by MADE EASY SCHOOL, Bandhwari Gurugram in association with the GuruJal team to make students aware of the importance of water conservation and how they can do it. More than 150 students participated and presented the specifics about the Rainwater Harvest Systems, RWH pits in their school, various activities taken up in spreading awareness campaigns at their school, RWH systems at their homes, and related research work integrated into their curriculum. This was followed by an extensive information-packed session by the GuruJal team and a very interactive Q&A session.

A glimpse from the webinar

Online Pani Panchayat organized for Chandla Dugarwas and Dhaula villages

18th and 21st January 2022

Online Pani Panchayat in Chandla Dugarwas

GuruJal organized an online Pani Panchayat in Chandla Dugarwas in the presence of Asst. Vice President, Waste to Wealth Mission and Solid Waste Management Specialist, Earth Tree Organization. Gram Sachiv, members from Youth Group, SBM, SHGs, National Rural Livelihood Mission, Anganwadi, School Teachers and Chandla Dugarwas community participated in an extremely pertinent discussion about water conservation and ownership of the pond restoration work in progress at the village.

Online Pani Panchayat in Dhaula

GuruJal also organized an online Pani Panchayat in Daula in the presence of DDPO Gurugram; BDPO Sohna; Asst. Vice President, Waste to Wealth Mission; Solid Waste Management Specialist, Earth Tree Organization. Gram Sachiv, members from Youth Group, SBM, SHGs, National Rural Livelihood Mission, Anganwadi, School Teachers and Daula community participated in an extremely pertinent discussion about water conservation and project ownership. Daula pond rejuvenation impacts were highlighted by the technical team.
